The teaching learning process has been defined as a systematic, sequential, planned course of action on the part of both the teacher and learner to achieve the outcomes of teaching and learning.

Our college is follow the below teaching learning process.

Engage : In the first phase of the learning cycle, the teacher works to gain An understanding of the student's prior knowledge and identify any knowledge gaps. It is also important to foster an interest in the upcoming concepts. Teachers might task students with asking opening questions or writing down what they already know about the topic.

Explore : Students actively explore the new concept through concept through concrete learning experience. This is allows students to learn in a hands on way.

Explain` : For the explain phase before introducing technical information in a more direct manner. A learning cycle approach for enquiry based science teaching utilize video, computer softwere to boost understanding.

Elaborate : This is giving students space to apply what they have learned. This helps them to develop a deeper understanding. To allows students to cement their knowledge before evaluation.

Evaluate : Teachers can observe their students and see whether they have a complete grasp of the core concepts. Evaluate phases include self-assessment, peer-assessment, writing assignments and

exams.
